

EC 327 Introduction to Software Engineering
Spring 2026, Prof. Douglas Densmore
Project Contribution Sheet

Name: Yuzhe Sun (Tony)

TA: Yoan Zhao

Group Name and Project Description (short):

wAltwise — a Chrome extension that detects when ChatGPT is thinking and shows a short quiz during the wait time.

1. Please list all group members (including you). Beside each name please give a score between 0 and 5 (0 = did nothing and 5 = exceeded responsibilities).

Yuzhe Sun (Tony) — 5 / 5

Lauren Tran — 4.5 / 5

Robert Rushing — 4.5 / 5

2. Please rank all group members (including you) from “Most Work Done” to “Least Work Done” (i.e. who did the most coding, debugging, presentation work, etc). **This is an ordered list with NO TIES.**

Yuzhe Sun (Tony)

Lauren Tran

Robert Rushing

3. Please rank all group members (including you) from “Most Technically Important” to “Least Technically Important”. **This is an ordered list with NO TIES.**

Yuzhe Sun (Tony)

Robert Rushing

Lauren Tran

4. Should any group member not receive as much credit as the other members? If so, why? If so, are you willing to publically confront this person if required (no is ok)?

No. Everyone made meaningful contributions, and I am glad to have worked with this group.

I contributed the most to the core architecture, quiz modes, RAG/retrieval flow, provider support, docs, and deployment. Lauren contributed review hub and sorting/menu improvements. Robert contributed the pet/gamification widget and UI polish.

Willing to publicly confront: No.

5. Other comments?

I am happy with our group overall. Everyone contributed to the final prototype, and I think we worked together well to build a functional Chrome extension.
